

Model identifier	HV-W68A
Input voltage	(compatible with QC / AFC-PD-protocol) 5 V / 2 A – 9 V / 2 A – 12 V / 1,5 A
Output voltage	(adjusts automatically to the smartphone) Max. 15 W (compatible with 10 W, 7.5 W, 5 W)
Output current	1 A – 1,67 A
Output voltage	5 V – 9 V
Maximum efficiency	7,5 W / 76 %
Charging distance	5 mm
Connection	1.2 m USB-C cable
Charging method	Magnetic alignment, electromagnetic induction
Operating frequency	110 – 205 kHz
Diameter	6 cm
Weight	65 g
Box content	Wireless charger with magnet (model identifier: HV-W68A), manual

iPhone is not included
in the delivery.

HIGHLIGHTS

- ✓ Super light charger for wireless charging of devices using electromagnetic induction
- ✓ For all smartphones with wireless charging feature
- ✓ Allows automatic adjustment of the output power to the end device
- ✓ With all essential features that ensure safe charging of your smartphone (e.g. against overheating, overvoltage, overcurrent and electrical shorts)
- ✓ 1.2m long USB-C cable
- ✓ Quick and easy
- ✓ Modern and stylish

ACCESSORIES

- Manual
